It's greap!

TIPS FOR A GREEN VISIT

#visitprlekija
#ifeelslovenija

Municipality of
LJUTOMER

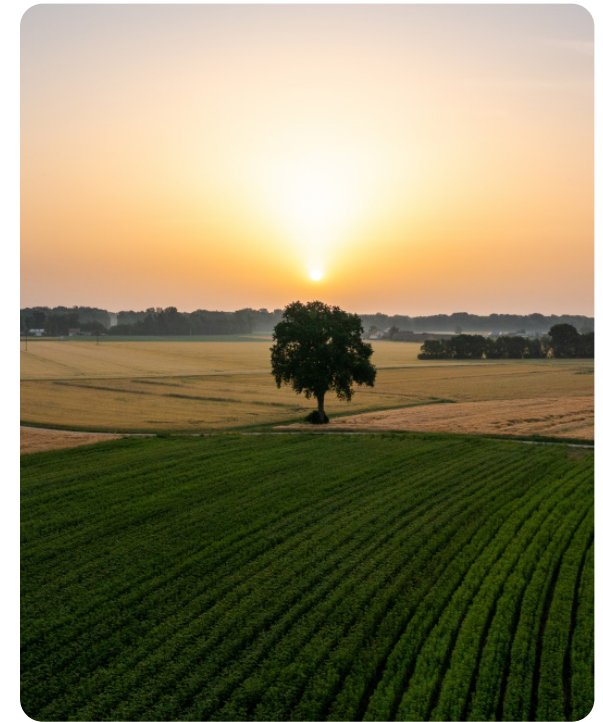

Green Slovenia, Green Ljutomer

With its unspoilt forests, rivers and sea, as well as its parks, meadows and vineyards, Slovenia is a truly green land, and the first country to have been, in its entirety, declared a Green Destination of the World.

As a green destination, the municipality of Ljutomer actively follows the principles of sustainable development, which is also confirmed by our entry into the Green Scheme of Slovenian Tourism. With the Slovenia Green label, we are working together with you to preserve and develop our destination in a sustainable way.

Visit Ljutomer by train, bus or choose an airline which is committed to reducing its carbon footprint. Stay with a provider that carries the eco-label and is committed to sustainability.

Nature and landscape

Visit our protected areas. As much as 5.3% of the destination's total area is included in a **Natura 2000** nature conservation area, and more than 12% is protected within the *Babji ložič* and *Ljutomerski ribniki in Jeruzalemske gorice* areas.

Ljutomer and its surroundings are ideal for exploring at a leisurely pace. Take a stroll along the well-maintained and signposted footpaths. However, be aware that leaving the marked paths may affect the biotic balance of flora and fauna.

You can also explore the hilly landscape by bike. You can rent regular or e-bikes at TIC Ljutomer and Jerusalem. There is also an automated bicycle rental system in town called *Prleški bicikl*.

Environment and climate

Experience Ljutomer as a green outdoor home. Ensure that waste is collected separately and disposed of at appropriate collection points accessible to municipal services.

Our water is clean and drinkable. Use refillable bottles for a sustainable life.

The Ljutomer area is also rich in surface water. Help conserve our water resources by taking short showers instead of baths and turning off the tap while brushing your teeth.

Choose soap and cosmetic and cleaning products that are environmentally friendly and do not harm nature or its fragile ecosystems.

Be aware of energy and switch off electronic and other devices when they are not in use and unplug power cords from the mains.

Culture and tradition

Contribute to the development of the local economy by buying products and produce from Prlekija in local shops. Support local producers: farmers by ordering dishes made with local ingredients, craftsmen by buying their products, and artists by seeing and buying their works of art.

Taste the richness of our cuisine: tünka meat, zaseka lard spread, postržjača cake, prleška gibanica cake, krapec buckwheat cake and many other specialities.

Our culture is best presented by local guides, who know the spirit of the town and local events in all four seasons.

Visit our museums, galleries, cultural institutions and collections, and contribute to the preservation of the finest works of Slovene culture and art.

Do not miss traditional events and festivities that will introduce you to Slovene customs and traditions, such as the traditional fair called Prleški sejem, St. Martin's Day celebration, trotter horse races and kožuhaje, an autumn farming task of peeling leaves off corn cobs.

Over the centuries, the Slovene language has helped preserve Slovene culture and identity. Try to learn some basic words and expressions that will put a smile on your hosts' faces.

Dober dan.

Zdravo.

Nasvidenje.

Adijo.

Prosim.

Hvala.

Kako ste?

Kako si?

To mi je všeč.

To je zelo dobro.

Good morning/afternoon. (polite and formal)

Hello./Hi.

Goodbye. (polite and formal)

Bye-bye. (informal)

Please.

Thank you.

How are you? (polite and formal)

How are you? (informal)

I like this.

This is very good.

**Located in the heart of
Prlekija, Ljutomer is a
green, healthy and safe
destination.**

Thank you for walking the green path with us. Open your heart to green habits and embrace them in your everyday life.
